■ THE PROBLEM

Running Blind on Your Own Finances?

Most business owners don't realize how much they're losing until it's too late.

Leaking Cash Flow

You're working harder than ever but can't figure out where the money goes each month.

Tax Season Panic

Scrambling to find receipts and records when deadlines hit — costing you time and penalties.

Missed Deductions

Every year, thousands in deductions go unclaimed simply because records aren't maintained properly.

Compliance Anxiety

Staying compliant with local, state, and federal regulations feels like a full-time job on its own.

Time Drain

Hours spent on bookkeeping = hours not spent serving customers, closing deals, or growing.

No Financial Visibility

Making decisions without real-time financial data is like flying your business blindfolded.

THE SOLUTION

Rocket Bookkeeper — Precision, Clarity, Peace of Mind

We handle every detail of your bookkeeping so you can lead with confidence. From day-to-day transaction recording to monthly reporting and tax preparation — we've got every number covered.

Real-Time Dashboards

Know exactly where your money is, anytime, anywhere.

Dedicated Bookkeeper

One expert assigned to your account — no revolving door.

Monthly Reports

Clear, jargon-free reports delivered on schedule, every month.

100% Compliance

We stay current with all local and federal regulations for you.

Advisory Insights

We don't just record numbers — we help you understand them.

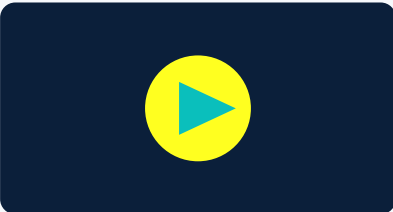

Onboarding in 48 hrs

Up and running faster than you can say 'balance sheet'.

■ ■ Our Promise: 100% Accuracy Guarantee — or we fix it FREE, no questions asked.

Connections with local lenders for when you need a loan or line of credit.

10+ Years Local Expertise

50+ Compliance Regulations Known

ABOUT US

Built by Bookkeepers. Driven by Purpose.

JR

Jordan Riley, CPA

Founder & Head Bookkeeper

I started Rocket Bookkeeper after watching too many small business owners lose sleep over finances that should have been simple. My mission: make professional-grade bookkeeping accessible, transparent, and actually useful — not just a compliance checkbox. Every client gets the same attention I'd give my own business.

Our Core Values

Accuracy First

We double-check everything.

Radical Transparency

No hidden fees. No surprises.

Client-Centered

Your success is our metric.

Data Security

Secure, accurate, and accessible.

✓ CPA Certified

✓ QuickBooks ProAdvisor

✓ Xero Certified

✓ SOC 2 Compliant

FAQS

Everything You've Been Wondering

Transparent answers to the questions we hear most often.

How quickly can you get started?

We can onboard new clients within 48 hours. After a brief discovery call, we connect to your accounting software, review historical data, and begin the first reconciliation cycle.

What accounting software do you work with?

We support QuickBooks Online, Xero, Wave, FreshBooks, and most major platforms. If you use something else, just ask — we're flexible.

How much does it cost?

Our plans start at \$199/month for freelancers and scale based on transaction volume and complexity. Every plan includes a dedicated bookkeeper and monthly reports.

Do I need to have my books current to start?

Not at all. We regularly help clients catch up on months or years of backlogged bookkeeping. We'll give you a clear timeline and quote upfront.

Is my financial data secure?

Absolutely. We use bank-grade 256-bit encryption, two-factor authentication, and strict access controls. Your data is never shared with third parties.

Can you handle payroll too?

Yes — we offer full-service payroll as an add-on, including direct deposit, payroll tax filings, and year-end W-2/1099 preparation.

What if I'm not happy with the service?

We stand by our 100% satisfaction guarantee. If you're not happy within the first 30 days, we'll refund your first month — no questions asked.

Do you work with businesses in multiple states?

Yes. We have clients operating in all 50 U.S. states and understand multi-state compliance, nexus rules, and interstate payroll obligations.

Ready to Take Control of Your Finances?

Join 500+ businesses that have found clarity, accuracy, and peace of mind.
